Safety Warnings

- After use, turn off and unplug the unit.
 - Pull on the power plug instead of the power cord when unplugging the styler.
 - Before use, check that the appliance is compatible with the voltage used in the region where you are located.
 - Do not use the styler if the inside of the main unit turns red, if it generates smoke, or if you hear the sound of foreign matter moving inside it.
 - Regarding the power cord, do not damage, forcibly bend, twist, pull, load any heavy weight onto, bring near to any hot object, pinch, modify, or bundle it when using the styler. Do not wrap the cord around the main unit.
 - Long-term use or misuse may cause the power cord to become damaged. Do not use it if:
 - The styler sometimes does not blow air;
 - The power cord remains twisted;
 - The base of the power cord or plug is deformed or damaged; or
 - The power plug is loose in the AC outlet.
 - If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.
 - Do not leave the styler with the power switch turned ON. Do not put the styler on anything flammable or sensitive to heat, such as a mattress, paper, or plastic bags.
 - Do not use it on babies. Do not have a child close by when using it. This styler should be stored out of reach of children.
 - This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
 - Children should be supervised to ensure that they do not play with the appliance.
 - Do not use the styler near any flammable material, such as gasoline, benzine, thinner, gas, or hair cosmetics agents. Do not use the styler with hairspray.
 - Do not block the air intake or outlet.
 - Do not put hairpins or any other foreign objects into the air intake or outlet.
 - Examine the attachment before use, and make sure that there are no foreign objects inside.
 - Do not look into the air outlet while it is in use.
 - Keep the air inlet at least 10 cm away from hair to prevent hair from being sucked into the styler during use.
- Warning:** This symbol indicates that this product must not be used near water, such as baths or basins with shower water.
- Do not use this appliance near bathtubs, showers, basins or other vessels containing water. When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off. For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.
 - Do not use the styler with wet hands.
 - Do not place the styler in water or pour water on it. Store it in a place with low moisture.
 - Do not modify the styler. No one other than repair engineers should disassemble or repair the styler.
 - Clean the air inlet and inlet net at least once a month.
 - Do not allow too much hair to wrap around the attachment.
 - Do not touch any attachment or the air outlet during or immediately after use, and also avoid any accidental contact with your skin, as the attachments and the outlet will be hot.
 - The styler is intended for the hair-drying and styling of human hair. Do not use it for other purposes, such as for pet hair.
 - Do not let the styler fall or sustain impact. Do not use it if it has been damaged.
 - Do not touch the styler with hair dye- stained hands. Never apply alcohol, benzine, or enamel remover.
 - Do not apply hairstyling products onto the attachment directly.
 - The styler is not intended for business use. Keep it away from unspecified usage by a large number of people.

How to use

- 1 Add the attachment to the main unit.
 - Align the concave part of the attachment with the convex part of the main unit and push firmly.
 - To detach, pull the attachment away while maintaining pressure on the detach button.
- 2 After checking that this appliance is compatible with the voltage and shape of the outlet, insert the power plug into the outlet.
- 3 Press the power button. The appliance will start operating in mode “DRY” so switch to the mode yo u want to use by pressing the mode-switching button.

- The mode is changed in the following order with each press of the mode-switching button.
 - “DRY” ... For fast drying.
 - “SET” ... For drying while styling.

Troubleshooting

Issue	Possible cause	Solution
No air blows out.	The appliance is not compatible with the voltage.	Use with 100-120V or 200-240V.
Hot or cool air comes out unintentionally. A spark appears from the air outlet. (A spark is caused by the safety device.)	The air intake is blocked. Dust and hair have become attached to the air intake.	Ensure that the air intake is not blocked. Remove dust and hair. If the problem still persists, stop using the styler immediately.
I cannot feel the effect of the negative ions.	The effect of the negative ions is less apparent in people with the following hair types. <ul style="list-style-type: none">• Curly hair• Wavy hair• Thin, fine hair• Short hair• Recently straightened hair• Naturally oily hair	
Other abnormalities or defects are present.	Immediately stop using the styler.
